DOVER

BBC-2 TELEVISION SERVICE

Channel 56 Horizontal polarization
(Vision 751.25 MHz Sound 757.25 MHz)

Maximum vision ERP 100 kW (Directional aerial)

The service area is roughly indicated by the unshaded part of the map, but the boundary must not be interpreted as a rigid limit and reception may be possible at many places outside it. Also, because the quality of reception on UHF can vary at places only short distances apart, there are, inevitably, small pockets of poor reception which cannot be shown.
